GURR M.I. Editorial. 1

PRENTICE A.M., GOLDBERG G.R., DAVIES H.L., MURGATROYD P.R. & SCOTT W. Energy-sparing adaptations in human pregnancy assessed by whole-body calorimetry. 5

BURRIN D.G., FERRELL C.L., EISEMANN J.H., BRITTON R.A. & NIENABER J.A. Effect of level of nutrition on splanchnic blood flow and oxygen consumption in sheep. 23

SYMONDS M.E., BRYANT M.J. & LOMAX M.A. Lipid metabolism in shorn and unshorn pregnant sheep. 35

DUNSHEA F.R., BELL A.W. & TRIGG T.E. Relations between plasma non-esterified fatty acid metabolism and body fat mobilization in primiparous lactating goats. 51

DUPUIS Liliane, SAUNDERSON C. Linda, PUIGSERVER Antoine & BRACHET Patrick Oxidation of methionine and 2-hydroxy 4-methylthiobutanoic acid stereoisomers in chicken tissues. 63

WANG T.C. & FULLER M.F. The optimum dietary amino acid pattern for growing pigs. 1. Experiments by amino acid deletion. 77

LUND E.K., GEE J.M., BROWN J.C., WOOD P.J. & JOHNSON I.T. Effect of oat gum on the physical properties of the gastrointestinal contents and on the uptake of D-galactose and cholesterol by rat small intestine in vitro. 91

ANDRIEUX Claude, GADELLE Daniele, LEPRINCE Christine & SACQUET E. Effects of some poorly digestible carbohydrates on bile acid bacterial transformations in the rat. 103

WALTERS M.P., KELLEHER J., FINDLAY J.M. & SRINIVASAN S.T. Preparation and characterization of a [^{14}C]cellulose suitable for human metabolic studies. 121

SIDDHU Anupa, SUD Sudha, BIJLANI R.L., KARMARKAR M.G. & NAYAR Usha Modulation of postprandial glycaemia and insulinaemia by cellulose in mixed nutrient combinations. 131

PETTERSSON D. & ÅMAN P. Enzyme supplementation of a poultry diet containing rye and wheat. 139

SEAL C.J. & MATHERS J.C. Intestinal zinc transfer by everted gut sacs from rats given diets containing different amounts and types of dietary fibre. 151

HALLMANS Göran, SJÖSTRÖM Rolf, WETTER Lars & WING Kenneth R. The availability of zinc in endosperm, whole grain and bran-enriched wheat crispbreads fed to rats on a Zn-deficient diet. 165

PROHASKA Joseph R. Effects of dietary copper deficiency on male offspring of heterozygous brindled mice. 177

CANTON Mary C., COTTER B.M., CREMIN F.M. & MORRISSEY P.A. The effect of dietary zinc deficiency on pancreatic γ-glutamyl hydrolase (*EC* 3.4.22.12) activity and on the absorption of pteroylpolyglutamate in rats. 185

FOLMAN Y., RUSSELL R.M., TANG G.W. & WOLF G. Rabbits fed on β-carotene have higher serum levels of all-*trans* retinoic acid than those receiving no β-carotene. 195

WHITEHEAD Colin C. & RENNIE J. Sarah Relation between some folate-dependent metabolic pathways and dietary folate content in chicks. 203

THOMAS Anita J., BUNKER Valda W., SODHA Nidish & CLAYTON Barbara E. Calcium, magnesium and phosphorus status of elderly inpatients: dietary intake, metabolic balance studies and biochemical status. 211

CAMPBELL Douglas, BUNKER Valda W., THOMAS Anita J. & CLAYTON Barbara E. Selenium and vitamin E status of healthy and institutionalized elderly subjects: analysis of plasma, erythrocytes and platelets. 221

CRUICKSHANK G.J., POPPI D.P. & SYKES A.R. Theoretical considerations in the estimation of rumen fractional outflow rate from various sampling sites in the digestive tract. 229

GURR M.I. Editorial. 241

PAGE Martyn G., ANKOMA-SEY Victor, COULSON William F. & BENDER David A. Brain glutamate and γ-aminobutyrate (GABA) metabolism in thiamin-deficient rats. 245

FULLER M.F., MCWILLIAM R., WANG T.C. & GILES L.R. The optimum dietary amino acid pattern for growing pigs. 2. Requirements for maintenance and for tissue protein accretion. 255

DØRUP Inge & CLAUSEN Torben Effects of potassium deficiency on growth and protein synthesis in skeletal muscle and the heart of rats. 269

INKSTER J.E., HOVELL F.D. Deb., KYLE D.J., BROWN D.S. & LOBLEY G.E. The effect of clenbuterol on basal protein turnover and endogenous nitrogen loss of sheep. 285

ABDUL-RAZZAQ H.A. & BICKERSTAFFE R. The influence of rumen volatile fatty acids on protein metabolism in growing lambs. 297

MURGATROYD P.R. & COWARD W.A. An improved method for estimating changes in whole-body fat and protein mass in man. 311

SINGH J., PRENTICE A.M., DIAZ E., COWARD W.A., ASHFORD J., SAWYER M. & WHITEHEAD R.G. Energy expenditure of Gambian women during peak agricultural activity measured by the doubly-labelled water method. 315

KUYVENHOVEN Marja W., ROSZKOWSKI Wojciech F., WEST Clive E., HOOGENBOOM Ron L.A.P., VOS Ria M.E., BEYNEN Anton C. & VAN DER MEER Roelof Digestibility of casein, formaldehyde-treated casein and soya-bean protein in relation to their effects on serum cholesterol in rabbits. 331

OSADA Jesús, AYLAGAS Hortensia, CAO Gonzalo, MIRÓ-OBRADORS Maria Jesús & PALACIOS-ALAIZ Evangelina Changes in serum cholinesterase (*EC* 3.1.1.8) activity in rats consuming a high-fat diet. 343

TANDLER A., WATANABE T., SATOH S. & FUKUSHO K. The effect of food deprivation on the fatty acid and lipid profile of red seabream (*Pagrus major*) larvae. 349

SCHOFIELD Claire, STEWART Judith & WHEELER Erica The diets of pregnant and post-pregnant women in different social groups in London and Edinburgh: calcium, iron, retinol, ascorbic acid and folic acid. 363

FAIRWEATHER-TAIT Susan J., JOHNSON Amanda, EAGLES J., GANATRA Smita, KENNEDY H. & GURR M.I. Studies on calcium absorption from milk using a double-label stable isotope technique. 379

BRYDEN W.L. Intestinal distribution and absorption of biotin in the chicken. 389

CHARLTON Judith A. & ARMSTRONG D.G. The effect of varying the sodium or potassium intake, or both, on magnesium status in the rat. 399

GUPTA R.P., VERMA P.C., SADANA J.R. & GUPTA V.K. Effect of experimental zinc deficiency and repletion on sodium, potassium, copper and iron concentrations in guinea-pigs. 407

SOUTHON Susan, WRIGHT A.J.A. & FAIRWEATHER-TAIT Susan J. The effect of combined dietary iron, calcium and folic acid supplementation on apparent ^{65}Zn absorption and zinc status in pregnant rats. 415

COXAM Véronique, BAUCHART Dominique, DURAND Denis, DAVICCO Marie-Jeanne, OPMEER Fred & BARLET Jean-Pierre Nutrient effects on the hepatic production of somatomedin C (IGF_1) in the milk-fed calf. 425

FRIEDMAN Aharon & SKLAN David Impaired T lymphocyte immune response in vitamin A depleted rats and chicks. 439

GRENBY T.H., PHILLIPS A., DESAI T. & MISTRY M. Laboratory studies of the dental properties of soft drinks. 451

LIRETTE A. & MILLIGAN L.P. A quantitative model of reticulo-rumen particle degradation and passage. 465

MURPHY M.R., KENNEDY P.M. & WELCH J.G. Passage and rumination of inert particles varying in size and specific gravity as determined from analysis of faecal appearance using multicompartment models. 481

GRENET E. A comparison of the digestion and reduction in particle size of lucerne hay (*Medicago sativa*) and Italian ryegrass hay (*Lolium italicum*) in the ovine digestive tract. 493

SILANIKOVE N. & BROSH A. Lignocellulose degradation and subsequent metabolism of lignin fermentation products by the desert black Bedouin goat fed on wheat straw as a single-component diet. 509

Letters to the Editors 521

CHANTER D.O. Editorial 527

HASDAI A., NITSAN Zafrira, VOLCANI R. & BIRK Yehudith Growth, digestibility, and enzyme activities in the pancreas and intestines of guinea-pigs fed on raw and heated soya-bean flour. 529

IDE T., HORII M., KAWASHIMA K. & YAMAMOTO T. Bile acid conjugation and hepatic taurine concentration in rats fed on pectin. 539

FAJARDO Gladys & HÖRNICKE H. Problems in estimating the extent of coprophagy in the rat. 551

LONGSTAFF M. & MCNAB J.M. Digestion of fibre polysaccharides of pea (*Pisum sativum*) hulls, carrot and cabbage by adult cockerels. 563

MATANOBU Abe & IRIKI Tsunenori Mechanism whereby holotrich ciliates are retained in the reticulo-rumen of cattle. 579

GHERARDI S.G. & BLACK J.L. Influence of post-rumen supply of nutrients on rumen digesta load and voluntary intake of a roughage by sheep. 589

ORTIGUES Isabelle, SMITH T., OLDHAM J.D., MCALLAN A.B. & SIVITER J.W. Nutrient supply and growth of cattle offered straw-based diets. 601

DAVIES Peter S.W., EWING G. & LUCAS A. Energy expenditure in early infancy. 621

COLE A.H., IBEZIAKO P.A. & BAMGBOYE E.A. Basal metabolic rate and energy expenditure of pregnant Nigerian women 631

NG L.L. & HOCKADAY T.D.R. The effect of environmental temperature on prandial changes in leucocyte sodium transport in man. 639

BATTERHAM E.S. & BAYLEY H.S. Effect of frequency of feeding of diets containing free or protein-bound lysine on the oxidation of [^{14}C]lysine or [^{14}C]phenylalanine by growing pigs. 647

EISEMANN J.H., HAMMOND A.C. & RUMSEY T.S. Tissue protein synthesis and nucleic acid concentrations in steers treated with somatotropin. 657

MCBRIDE Brian W. & EARLY Richard J. Energy expenditure associated with sodium/potassium transport and protein synthesis in skeletal muscle and isolated hepatocytes from hyperthyroid sheep. 673

VIÑA Jose, PEREZ Carmen, FURUKAWA Tadayasu, PALACIN Manuel & VIÑA Juan R. Effect of oral glutathione on hepatic glutathione levels in rats and mice. 683

WRIGHT Stephen & BOLTON Colin Breast milk fatty acids in mothers of children with atopic eczema. 693

KEARNEY J., KENNEDY N.P., KEELING P.W.N., KEATING J.J., GRUBB Louise, KENNEDY Margaret & GIBNEY M.J. Dietary intakes and adipose tissue levels of linoleic acid in peptic ulcer disease. 699

SOUTHON Susan, WRIGHT A.J.A. & FAIRWEATHER-TAIT Susan J. The effect of differences in dietary iron intake on ^{59}Fe absorption and duodenal morphology in pregnant rats. 707

WRIGHT Anthony J.A., SOUTHON Susan & FAIRWEATHER-TAIT Susan J. Measurement of non-haem iron absorption in non-anaemic rats using ^{59}Fe: can the Fe content of duodenal mucosal cells cause lumen or mucosal radioisotope dilution, or both, thus resulting in the underestimation of Fe absorption? 719

O'HARTE F.P.M., KENNEDY D.G., BLANCHFLOWER W.J. & RICE D.A. Methylmalonic acid in the diagnosis of cobalt deficiency in barley-fed lambs. 729

FURNISS D.E., VUICHOUD J., FINOT P.A. & HURRELL R.F. The effect of Maillard reaction products on zinc metabolism in the rat. 739

KOPINSKI J.S., LEIBHOLZ Jane, BRYDEN W.L. & FOGARTY A.C. Biotin studies in pigs. 1. Biotin deficiency in the young pig. 751

KOPINSKI J.S. & LEIBHOLZ Jane Biotin studies in pigs. 2. The biotin requirement of the growing pig. 761

KOPINSKI J.S., LEIBHOLZ Jane & BRYDEN W.L. Biotin studies in pigs. 3. Biotin absorption and synthesis. 767

KOPINSKI J.S., LEIBHOLZ Jane & BRYDEN W.L. Biotin studies in pigs. 4. Biotin availability in feedstuffs for pigs and chickens. 773

KOPINSKI J.S., LEIBHOLZ Jane & LOVE R.J. Biotin studies in pigs. 5. The post-ileal absorption of biotin. 781
